#### DECLARATION MEETING OF THE INTERNATIONAL COUNCIL OF TARIQA ULEMA

Begging for Allah's grace and blessing with saying

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

The International Council of Tariqa Ulema hereby declares:

1. Inviting all Ulema to build spiritual awareness and moderate understanding among Muslims while maintaining harmony among religious communities in order to create world stability and peace.
2. Encouraging the involvement of Muslim countries to unite and to create a peaceful and tolerant world society by fighting all forms of violence and terror in the name of Islam.
3. Prohibiting and blocking all forms of Islamic understanding that lead to acts of violence and terrorism that divide people and harm Islam, as was ruled by the FETO (Fethullah Gulen) in Turkey and DAESH (ISIS) in the Middle East. Specifically for the FETO case, DUTI agreed to call it a world terrorist organization as ISIS and for that it would propose to the United Nations to include FETO in list of world terrorist organization.
4. Supporting all actions of the governments of Muslim countries to prevent and protect their citizens from all forms of activities that lead to radical terrorism that breaks the unity and brotherhood of the same religion and nationality.
5. Urge all Muslims to not be trapped in interpreting the term radical-terrorism which is always attached to Islam and Muslims, because in fact the real terrorist that has been for decades and cannot be eliminated in the history were Israeli Zionist who has terrorized and colonized the Palestinian people without humanitarianism.
6. In the shortest time, the International Council of Tariqa Ulema will cooperate with the Turkish government to gather all the resources of each Muslim country to establish an independent international humanitarian institution for education and the economy of the young Palestinian generation as the spearhead of the liberation and independence of the nation by involving all member of International Council of Tariqa Ulema in each country, including Indonesia, Turkey, Algeria, Germany, France, Kenya and Morocco.

Thus we convey this declaration, may Allah SWT protect the salvation of Muslims and Muslims throughout the world who are still oppressed by injustice, and may Allah always strengthen our hearts and deeds in this struggle, so as to get Allah's pleasure and intercession from the Great Prophet Muhammad.
